

Medicine and Health through Time Check List: THE RENAISSANCE

Read through the questions. If you can answer them, tick them. If you cannot answer them you need to research the question and write up the answer so I can mark it

The Renaissance:

- 1: When was the Renaissance?
- 2: Who were Pare, Vesalius and Harvey and what did they do?
- 3: How did the three individuals impact on Public health, Surgery and anatomy and disease and infection? (The individual may only have impacted on one medical theme)
- 4: What did people believe caused the Plague?
- 5: How was the Plague treated?
- 6: Had medicine improved between the Black Death and the Plague?
- 7: Who could treat you and what class did you have to be?
- 8: Was there still a belief in superstition and if so what were the beliefs?
- 9: How did religion impact on medicine?
