Dear Parent/Carer

RE: Key Stage 4 Science Intervention

As part of the on-going intervention to ensure that your daughter attains the best possible grade for Key stage 4 Science, my staff and I have arranged after school sessions. These are to address any gaps in her knowledge and/or add further work that will gain her a higher level in science.

As such, it is vital that your daughter attends all identified sessions for her so that this work can be completed. The session will commence from **Tuesday 19th April** and will occur **every week, between 3.30 pm and 4.30 pm in lab 4**. Please arrange for your daughter's journey home at this time.

I will be supporting students with their learning through guidance of how to complete good quality answer in exams, support with exam techniques and going through revision notes. At all times, should students need to ask questions or check their understanding there will be help available.

Each week the session will focus on different areas of additional science which have been highlighted as an area of weakness in student learning from exams. The first week will focus on ionic compounds and formulae.

To make this session more effective, your daughter needs to come prepared and revise for each session so she can make greater use of her time and work on improving the knowledge in each topic.

I welcome your support with this and look forward to a successful outcome for your daughter. Please complete and return the slip below to confirm your daughter's attendance.

Yours faithfully,

C Applegate
Assistant Head of Science

PRINCIPAL: Lucy Monk

Please return to the Upper School Office by Tuesday 19th February 2015
Key Stage 4 Science Intervention
FAO: Mr C Applegate

I agree to my daughter of Form
attending the above mentioned after-school group. I have made arrangements for her
journey home at 4.30 pm
